# Investoren Projekte

Together with Olinah GmbH we operated 2 decades in the **real estate** development, and work with reputable companies from the trade and construction together. So we could realize in the past few years many objects like hotels, shopping center, retirement homes and other commercial objects, together with various partners.

In the field of deep **geothermal** energy we are shareholders of a project company, and we will build the first power plant (new patent) until 2021.

We also draw back on a wide-ranging network of project owners and developers, financial institutions, lawyers and notaries. So we can provide our customers with **PV and Wind** investments diverse, lucrative opportunities in Germany and abroad to offer.

Here is a selection from a variety of projects / objects to which the *Olinah GmbH* and *Investoren Projekte* were involved in project development.

We have a pan-European network in terms of hotel marketing and development. Current hotel project developments: In Dortmund, Stuttgart, Rügen, Morocco; Revitalization Hotel in Budapest; in cooperation with partners and operators.

Completed implementation of retail parks, as well as locations for retirement homes, and for example ATU (Trading company car accessories; a total of 600 branches), and Carglass (Services of automotive glass, 290 branches).

In recent years we were able to convey several dozen residential and commercial real estate.

## Renewable Energy

### deep geothermal

- Shareholder in project company
- 2021 realization of power plants

### Photovoltaic & Wind

- Network sellers and investors
- Akquisitions, sales, solutions

Investoren Projekte is focused to promote project rights, turnkey and inventory systems from renewable energie plants (PV, Wind, Biogas, etc.) directly to investors.

Furthermore, we are mandated by various project developers, refineries, factories, etc., to attract investors for various projects or Trade Goods.

It consists of many years of a large network of contacts in order to respond to the demands of Customers with appropriate strategies / preparations / solutions.

If necessary, involvement of external consultants and partners, to find professional and individual solutions
